■ Telecom emerged as the largest vertical followed by government

■ Brought in strategic investors to expand business

## Dax Networks

RANK  
166

Dax reworked its strategy with a focus on small and medium enterprise business. It bagged an order from Indian railways' RISET for routing products. The company also announced its intention to create a wireless highway in the IT corridor in Bangalore. Dax introduced intelligent patch cords called PatchSee cords to allow the network administrator to identify the other end of any cord.
