

DATAQUEST

Dax Networks

RANK
178

Last year, Dax with 8% top line growth saw revenues coming from three broad areas of switches, routers, and structured cabling. These three together constituted 97% of its total revenues. Over the year the company introduced new generation networking access and connectivity products to meet growing needs of the horizontal markets in India. As part of its go-to-market strategy the company increased its focus on nearly 200 ADSPs trained and certified by Dax in end-to-end networking solutions.

■ Dax has been rated among the Top 5 Networking Brands by IDC India

■ Re-organized and formed specialized teams to cater to various market segments
