

**Sudha Jagadish, COO, Dax Networks**

We expect reduction or no increase in the Corporate Tax with concessions on FBT and extension of STPI Schemes. As a 20-year old networking player in the Indian market, Dax expects rationalization of VAT across all IT networking products; Reduction in CVD/Excise Duty to 4% on all Networking products; Special concessions to PC manufacturers in India in order to enhance PC penetration; Development of Rural Telephony and Rural broadband infrastructure and, above all, One PC / One TV / One Broadband connection for every home at subsidized rates.
