

**DX-2102E-NAS**

This NAS box for small business and SOHO users has a built-in iSCSI target service, policy-based unauthorized IP blocking, SNMP (Simple Network Management Protocol), remote replication, a Gigabit LAN port and three USB ports (with a built-in auto-copy feature). It is populated with two 1 TB HDDs and is scalable up to 4 TB. It supports S.M.A.R.T and is embedded with HHS Technology which supports disk checking and bad block scanning. The integrated UPnP/ DLNA media server supports gaming consoles and works with NFS-supported High-Definition digital media players. The Surveillance Station enables you to configure multiple IP-based security cameras simultaneously for real-time monitoring, recording, and playback. It comes with a 3-year warranty.

**Price:** Rs. 43,830
