

**Dax DX-509MG**

**Features:** This series of L2 managed Fast Ethernet switches adopts a full Access Control List (ACL) policy. The switch also supports 802.1X authentication and

RADIUS and has a Security IP function restricting unauthorized users from accessing and altering configurations along with support for the SSH protocol and HTTPS/SSL connections. The enhanced version supports an

IPv6/IPv4 dual stack.

The switch simultaneously provides up to 15.4 watts to the powered devices (PD) which conforms to IEEE 802.3af and pre-802.3af devices. It comes with IEEE 802.1p Quality of Service (QoS) feature. It also supports SNMP, in-band and out-band management, CLI and Web interface and RMON.

**Price:** Rs. 49,000
