

## **Dax Networks DX-137G IP Camera**

**D**ax Networks launched its DX-137G-FN50-O-H, a 3G-enabled 2 MP IP camera that comes with a 3G module and is ideal for enterprise surveillance.

The 3G module is designed for WAN network surveillance with SD card storage up to 32 GB. It supports H.264 and MJPEG dual streaming up to 30 frames per second for all video resolutions. The camera has a built-in Web server for remote control via browsers. It is a day-night IP66-rated outdoor waterproof camera. Its CMOS sensor and 3G module help detect even the slightest movement. The built-in infra-red LED provides up to 50m of clear night-vision.

The product is priced at ₹52,060, comes with a 3-year carry-in warranty and online support, and is available with authorized distributors.
