Dax offers Training and Certification on the NextGen Technology Topic:
'Surveillance'

Today, Security and Surveillance are a prime concern to every Organization and this has fueled a huge national demand for Surveillance Systems. Investments in surveillance equipments is expected to touch Rs.2,200 Crores by 2015 and create over one million jobs in the eco-system of hardware, software and services. Knowledge and know-how in Surveillance is a "must have" skill-set, to gain a compelling edge in today's competitive job market.

Dax has designed a 'first of its kind training course' to provide a complete insight into Concepts, Solution Design, Installation & Commissioning, combined with Management & Monitoring of State-of-the-art 'IP-Surveillance' systems. Dax, an ISO-14001 certified company, is amongst India's Top-5 IT networking companies today.

Dax provides three levels of certifications:
DCISE™ – Dax Certified 'IP-Surveillance' Solution Expert
DCINE™ – Dax Certified 'IP-Surveillance' Network Expert
DCIDE™ – Dax Certified 'IP- Surveillance' Design Expert.

Once Certified, Professionals will be Acknowledged & Listed on www.daxnetworks.com.
